

# R407F Genetron® Performax LT. Lower Global Warming Potential replacement for R404A.

## Introduction

R407F, also known as Genetron® Performax LT, is an HFC blend that is suitable for use in low and medium temperature refrigeration applications such as those used in commercial refrigeration. It is an ideal retrofit solution for many existing R404A systems, offering a substantially lower carbon footprint due to its lower GWP and improved energy efficiency.

## Specifics/facts

GWP 1825 (AR4). Substitute for R22, R502, R404A and R407A. Zeotropic refrigerant blend containing R32, R125 and R134a.

## Product specification

Cylinder size in litres	Content in kg	Item number
12	11	117362
61	56	117363

## Advantages

- 50% or higher reduction in GWP compared with R404A
- Zero ozone depletion potential. Use of R407F can reduce CO<sub>2</sub> emissions by up to 40%
- Non-toxic and non-flammable
